

# NOTICE TO RIVERSIDE-ALBERT RESIDENTS

Tuesday, May 23, 2023

**Water Main Upgrades** and related infrastructure work is expected to begin in June in Riverside-Albert. A portion of Forestdale Road will be affected during these upgrades.

We appreciate the cooperation and patience of the residents for the duration of this much needed water distribution system upgrade. Work is expected to be ongoing through the summer months, into the month of August. The Director of Operations will be working with the Department of Health to ensure safe drinking water during the upgrades. It is *possible* that a boil water advisory may be issued by the Department of Health, if deemed necessary, for the safety of the water users. For ***water/sewer emergencies only***, please contact the Director of Operations at (506) 850-1506.

Thank you.

Fundy Albert
